What is a Medical Home?

We have made changes to the way we provide care here at FHLC. These changes are based on a model called Patient Centered Medical Home (PCMH). PCMH is a partnership between you, your family, your primary clinician, behavioral health specialist, dentist, health educator, medical assistant, and other clinical staff working together as a team in caring for your health.

Sign up for MyChart!

You can communicate with a Medical Home Team member anytime during normal working hours by calling **(800) 942-5330** or sending a clinical message via MyChart. MyChart can be accessed via your smartphone or computer and offers 24/7 access to your health information.

What else can you do with MyChart?

- Manage your appointments.
- Access your test results.
- Request prescription refills.
- Pay your bill and more.

Appointment Information

- Calling in advance is always best.
- We offer same day appointments for medical only.
- Arrive 15 minutes prior to your appointment for patient paperwork.
- Visit **FamHealth.org** for site-specific hours.

As members of your care team, we will:

- Respect you and your family values and needs.
- Respect your culture and use language you can understand.
- Help you set health goals and create an action plan.
- Track the care you get from other clinicians.
- Ask for your ideas on how we can improve your care.
- Offer appointments at times convenient for you.
- Explain test results and what will happen next.
- Help you get support services when you need them including Behavioral Health, Dental, or WIC.
- Take time to make a personal connection with you.
- Help you plan for and manage any chronic health problems.
- Find specialists when they are needed.
- Use evidence-based medicine.

Our mission is to improve the health and well-being of all people in communities we serve.
